

SCREEN INK FOR THE MASTERS

Ali@decochem.com

The old masters used the best ink for their work. After all, they have lasted over the ages. You should choose the best available ink for your masterpiece because your customers are even more demanding. METABOND has stood the test of time and quality. It's excellent exterior durability and printability has distinguished it as the leader of the pack. Render your creation on metal or glass with METABOND!

Gloss, texture, brilliance and hue were all elements that became the essence of a masterpiece. You will discover all of these elements in LOXON. For decades, this product has been masterfully used on metal nameplates and panels throughout the world. No other epoxy can boast of its place in the history of appliance panels and nameplates. With LOXON, You can create your next work with all the elements of the masters!

As a 21st century artisan, you have something that the old masters did not. You have the means to easily protect your creation until your patron takes possession. PANEL PROTECTOR can be screen printed right over your masterpiece to help protect it from the forming processes that follows. Once your patron is satisfied with your work, he simply peels off the protector. The old masters would be amazed!

There are twenty one (21) masterpieces on this work. The first three people to correctly identify all of the artists will win a \$50 gift certificate to a restaurant near you. The first person to correctly identify all of the artists and the name of their work will win \$100.00 cash. Did you skip art appreciation class?
